

Competitive Landscape

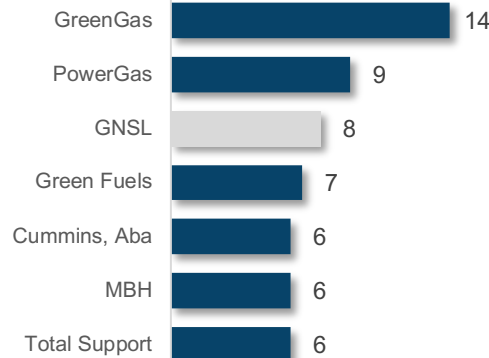

Gas Pipeline Capacity (mmscf/d)

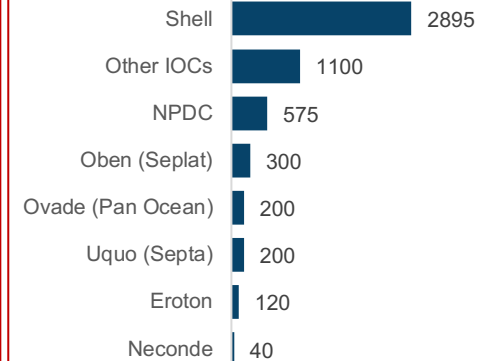

Grid/Merchant Power Generation (MW)

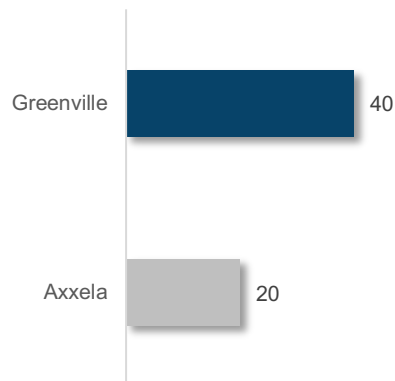

CNG Installed Capacities (mscm/h)

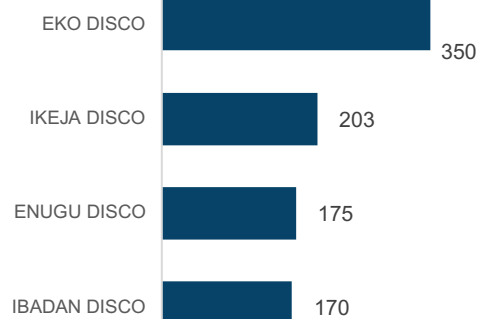

Gas Processing (mmscf/d)

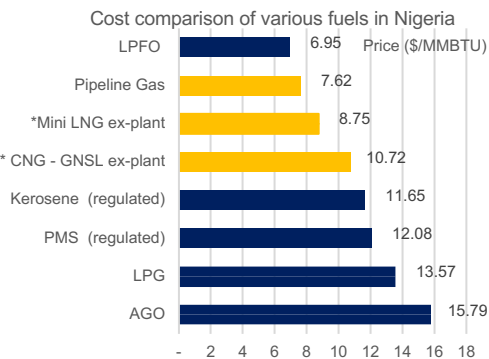

Mini LNG Capacity (mmscf/d)

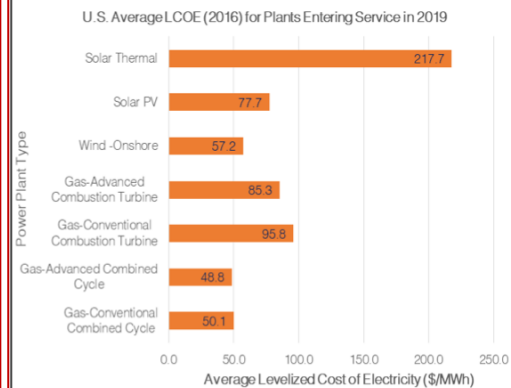

Embedded Power Aspirations (MW)

Fuel Cost Comparison

U.S. Average LCOE (2016) for Plants Entering Service in 2019

Source: EIA, Annual Energy Outlook 2017
Average Levelized Cost of Electricity includes all the costs such as CAPEX, fuel, O&M etc. and the time required to develop and operate a power plant over its entire life cycle.
